Try to imagine living everyday with pain.

For Joshua, Connor, and Luke, pain is a part of everyday life. All of them suffer from Eosinophilic Esophagitis or EE for short. As a result, Joshua lives with daily chest pain and nausea, while Connor and Luke live with stomach pain and food issues.

No child should have to live this way!

EE is a complicated digestive system disorder in which a type of white blood cell (eosinophils) are found in above-normal amounts in one or more specific places in the digestive system and/or the blood.

“Our goal is to raise money to find a cure to stop this disease for us and all the people who suffer.”

100% of the funds donated for this Walk will go to research.

The costs incurred to put this event together (we hope) will be covered through the generosity of our sponsors. For more information about EE, please visit: www.curedfoundation.org.

Come walk with us at the St Louis CURED Walk / Fun Run, Sunday, September 25, 2011 at Vlasis Park in Ballwin, MO. Participants who register before September 9, 2011 will receive a FREE T-Shirt!
