Bull's Walk 4 Cured!!

My name is Robert (bull), I'm 3 yrs old & I like Ninja Turtles & Mickey Mouse. I also have EGIDs. I was diagnosed with EOE, EGE, EG, EC!! in Jan. 2012 and I am still learning how it will affect me as I grow up. I will be getting a feeding tube soon in my tummy, because my body rejects food, so when I eat I get sick. I currently drink a special formula made just for me so that I get the right nutrition. Kids with my disease can't eat food, which makes me sad because my favorite cartoon loves pizza & so do I. I am trying to find "safe" foods for me to eat, currently I have only a few. I have a long road ahead of me and could use all the support I can get!

IMAGINE A CHILD LIVING THEIR DAYS LIKE THIS....
